YOU ARE ELIGIBLE FOR EOC PROJECTS

Since you only have 2 or less EOCs left to pass, you are eligible to complete projects to earn credit for your EOC exam(s). Once your project is complete and accepted, **you will still have to take the Spring EOCs in April** and wait for those scores to arrive before your Individual Graduation Committee can meet and you can present your projects.

YOU'VE STILL GOT WORK TO DO

Since you have **MORE THAN 2 EOCs** left to pass, you are not eligible to complete projects to earn credit for your EOC exam(s). However, you can be issued your projects and begin working on them in hopes that you will pass the number of EOCs you need when you retest in April. This semester you will have to buckle down and focus on studying and completing projects at the same time. It will be stressful, but the hard work will be worth it.
